Comments: (1-4-21, Industry)

Section 996-5.2 1. Consider adding back the language "..., unless otherwise shown in Plans" for pull and splice box lid marking. Certain Districts that I have worked with in the past and currently such as D4 and FTE have slightly different requirements that identify the District on the lid.

**Response: The Plans would take precedence over the Standard Specification and the Standard Index per Article 5-2, Coordination of Documents.**
