Section 932: If I am following the changes in Table 932-11 , we seem to have an overlap between the spec and Materials Manual.

This is one of the concerns we previously discussed with Juan.
How do you want to proceed with coordinating the Spec and MM?

Perhaps we could remove Table 932-11 and update 932-5.3 to point to the Materials Manual Volume II Section 2.4?

Response:

932 5.1. Missing period before "Commercial polymer products" 932 5.1. Missing colon before "powder" 932 5.2 Suggest replacing "...the following documentation" with "must meet the requirements of Table 932-10."
