

SP0071153B LEGAL REQUIREMENTS AND RESPONSIBILITY TO THE PUBLIC – PRESERVATION OF EXISTING
PROPERTY - UTILITIES – UTILITY ADJUSTMENTS (UTILITY WORK SCHEDULES)
COMMENTS AND RESPONSES FROM INTERNAL REVIEW

Arthur Berger
Phone: 850-414-5368

Comments: (12-10-21, Industry) The location(s) of the underground utilities shown identified in the Plans (including those designated Vv, Vh, and Vvh) are based on limited investigation techniques and should be considered approximate only. The verified locations/elevations identified in the Plans apply only at the specific points shown. Interpolations between these points have not been verified

Response:

Thank you for the language recommendations. Changes accepted as proposed.

Unknown

Comments: (1-4-21, Industry) Why would this information be added specifically to the Special Provision that may not always be applicable instead of the Standard Specification? This is currently a standard note. that is added to all projects. Utilities may still be shown even if there is not a UWS.

Response:

The change above (adding it to the Standard Specification) is to eliminate the standard note added to all projects. No change needed.
