Regarding "Payment for removal of non-conflicting markings will be paid separately" What pay item is this work paid by? or is it considered extra work?

Response:

Removal of non-conflicting painted markings are paid under 710-17-. Removal of non-conflicting markings of other material types are paid under their respective removal pay item (e.x., removal of non-conflicting thermoplastic is paid under 711-17-).

Action:

No change made.
