Clarification should be made as to who is paying for boxed breakfasts or lunches. Typically food is not an allowable expense for State meetings. "Workshops should be scheduled to accommodate boxed breakfast (or lunch), as agreed upon by the Engineer and Contractor."

Response: The cost of the boxed breakfast (or lunch) is borne by the Contractor. The costs of the partnering meeting that the Department will participate in will be the meeting room, facilitator fees, and travel expenses for the facilitator in accordance with Florida Statutes.

Action: No change made.

1. The reference to the "initial workshop" in the third line of the second paragraph of the suggested changes, the same as the "initial partnering workshop"? If so, may consider editing text to match for consistency. 2. Would any schedules (CPM) be evaluated, monitored, or discussed regarding the Specification?

Response: Yes, the 'initial workshop' in the third line of the second paragraph is referring to the initial partnering workshop.

Action: 'Initial workshop' in the third line of the second paragraph has been clarified to read 'initial partnering workshop'.
