

FERTILIZER.

(REV 3-29-21) (FY 2024-25)

The following new Section is added after Section 570:

SECTION 570-50

FERTILIZER

570-50.1 Description.

Furnish and apply fertilizer to establish turf as specified in the Contract Documents.

570-50.2 Materials.

Use fertilizer meeting the requirements of Section 982.

Select fertilizer to be used and determine the amount of fertilizer to apply based on soil test reports. Soil testing shall be performed by the

Apply fertilizer at the rate shown in the soil test reports and in compliance with the manufacturers label, federal, state, and department adopted rules, regulations, and standards.

570-50.3 Equipment and Application.

570-50.3.1 Fertilizer Spreader: Use a device and method capable of uniformly distributing the material at the specified rate. Use appropriate equipment and methods to prevent the fertilizer from being broadcast on the roadway or on vehicles, or nearby waterbodies.

570-50.3.2 Application of Fertilizer: Do not perform fertilizing operations when wind velocities exceed 15 miles per hour.

570-50.4 Method of Measurement.

The quantities to be paid for will be for the net weight in tons of fertilizer applied.

When bulk fertilizer is used, furnish weight tickets showing gross weight, tare weight, and net weight to the Engineer for every load distributed. For use of fertilizer distributed in containers, payment will be determined by the net weight on the container label for the number of containers used. No separate payment will be made for soil sampling or testing.

570-50.5 Basis of Payment.

Price and payment will be full compensation for all work and materials specified including all incidentals necessary to complete the work.

Payment will be made under the items specified in the Bid Price Proposal.
