COPIES: Kevin Thibault, Will Watts, Daniel Strickland, Tim Lattner, Rhonda Taylor, Dan Hurtado, Rudy Powell, Trey Tillander, Tim Ruelke, Khoa Nguyen (FHWA)

SUBJECT: FDOT Standard Specifications for Road and Bridge Construction – Annual Publication Transition

The State Program Management Office is transitioning from a semiannual publication to an annual publication of the Standard Specifications for Road and Bridge Construction.

The July 2022 Standard Specifications will be the last semiannual publication with an anticipated publication date of March 15, 2022, and will be implemented on all projects let July 1 through June 30, 2023.

The first annual publication will be the July 2023 Standard Specifications with an anticipated publication date of November 18, 2022, and will be implemented on all projects let July 1, 2023, through June 30, 2024.

The new annual publication process was thoroughly vetted with FHWA, FTBA, and the following Central Offices and District Offices: Construction, Design, Program Management, Traffic Engineering & Operations, Maintenance, and Materials. In addition, a presentation of the annual publication and transition timeline was provided in January at both the Joint Director's Meeting and the FTBA Construction Conference.

If you have any questions, please contact Daniel Strickland at (850) 414-4130 or by e-mail at daniel.strickland@dot.state.fl.us.
