IIJA	Infrastructure Investment and Jobs Act
NHFN	National Highway Freight Network
NHFP	National Highway Freight Program
SIS	Strategic Intermodal System
STIP	State Transportation Improvement Program
VICC	Vertically Integrated Cargo Community

Fiscally Constrained Funding Plan

The Freight and Mobility Trade Plan (FMTP) is the dedicated funding document for Florida's National Highway Freight Program (NHFP) funds; it establishes a 5-Year Fiscally Constrained Freight Investment Plan. This technical memorandum is meant to guide near future investments while ensuring compliance with Infrastructure Investment and Jobs Act (IIJA) requirements. The IIJA's increased focus on intermodal projects is a critical update to this plan and an important aspect of future NHFP project selection and will provide the lens by which this FMTP investment element is organized. The NHFP projects represented in this chapter were all selected utilizing the FMTP prioritization process which was outlined in Tech Memo 6.

Current Investments

Florida leverages discretionary grant opportunities, the NHFP, and the Florida Department of Transportation (FDOT) funds to deliver its freight projects. Florida has historically been apportioned \$65 million per year in NHFP funds, which incrementally rises every year and is expected to be over \$70 million yearly from 2025 forward. Between 2017 and 2025, there has been \$513 million provided for 85 NHFP projects with a further \$289 million expected between 2026 and 2030. A further set of freight-focused projects within FDOT's Adopted Work Program totaling just over \$6 billion between 2020 and 2030 provides funding for 204 projects supportive of the FDOT freight objectives as established in the FMTP. These projects have wide-ranging implications on the Florida freight network and the Florida Transportation Plan (FTP) strategic goals. FDOT's Strategic Intermodal System (SIS) also plays a vital role in meeting immediate and long-term freight needs. Between 2024 and 2028, SIS has dedicated \$16.9 billion to programming projects that potentially affect freight.

Adopted Work Program – All FDOT Funds

FDOT utilizes a series of investment systems to support freight across Florida. The Adopted Work Program (AWP) is a catch-all funding document that catalogues all the funds collected by the state for the express purpose of funding FDOT projects.

The AWP covers projects over the next five years at a value of \$64 billion.¹ As shown in Figure 1, \$23.5 billion, or 37 percent of the \$64 billion, are utilized specifically for projects such as Highway, Aviation, Spaceports, Rail, Seaports, Transit and Intermodal Capacity, and Other Transportation Enhancements. These projects span the variety of systems supporting all FDOT offices inclusive of freight, safety, and capacity.

Figure 1 | Adopted Work Program Totals

FLORIDA DEPARTMENT OF TRANSPORTATION TOTAL FUNDING BY PLANNED USE FY 2024 - 2028

TOTAL 5-YEAR ADOPTED WORK PROGRAM \$64.3B

Freight Funding in Adopted Work Program

Within the AWP there is a significant set of freight-focused projects (204) that are of strategic importance to achieving FMT P objectives. Totalling \$6 billion from 2020-2030 (Table 1), these projects are designated with the group identifier FRGT (freight). The projects have been designated due to their impact on the Florida freight system. The projects utilize multiple funding sources from across FDOT. Table 2 shows FRGT identified projects by total investment in each work mix type.

Table 1 | AWP FRGT Identified Estimated Project Funding

Fiscal Year	Estimated Funding
2020	\$1,459,876,499
2021	\$685,605,800
2022	\$405,979,311
2023	\$629,225,444
2024	\$1,232,038,743
2025	\$284,416,386
2026	\$252,620,248
2027	\$176,468,477
2028	\$183,925,449
2029	\$171,673,179
2030	\$651,793,788
Total	\$6,133,623,324

Table 2 | AWP FRGT Identified Project Types and Funding 2020-2030

Project Type	Estimated Funding total
Capacity	\$3,906,941,024
Airport Expansion	\$147,683,987
Bridge Maintenance	\$1,226,262,987
Rail Capacity	\$96,704,978
ITS	\$41,753,529
ILC	\$45,520,531
Seaport Expansion	\$522,234,431
Truck Parking	\$45,848,088
Studies	\$100,673,769

Strategic Intermodal Systems

Certain programs listed within the AWP support freight more directly than others, with the SIS network affecting highway freight the most. All highway projects in the SIS First Five Year Plan are of strategic significance to Florida freight networks. With over 70 percent of Florida truck traffic travelling through the SIS network, all SIS highway investments promote freight efficiency.²

The SIS plans are an important tool for FDOT in meeting existing and immediate freight needs. Their effectiveness hinges on how well the projects align with freight needs and priorities. Due to the expansive nature of the SIS network and its overlap with the National Highway Freight Network (NHFN), even those projects that are not directly managed by the Freight & Rail Office (FRO) influence freight movement on Florida's highways and seaports. Analysis of the project types and priorities show that reliability and safety are the two most important goal areas to stakeholders and to the SIS network. This aligns with the FMTP goals.

Within the AWP is the SIS First Five Year Plan, a major set of encumbered funds totaling \$16.9 billion for supporting freight and transit systems (Figure 2). Beyond this five-year horizon are the SIS Second Five-Year Plan which sets funding for years 6-10 and the SIS Cost Feasible Plan (CFP) which sets funding from 2035-2050. The CFP has a much broader vision which includes over \$30 billion in funds over that period.³ The SIS First Five Year Plan represents the projects that are funded by the legislature in the Work Program (Year 1) and projects that are programmed for proposed funding in the next two to five years.

TOTAL 5-YEAR ADOPTED WORK PROGRAM \$16.9B

NHFP Funding Updated Oct 2025

Florida is estimated to be apportioned an average of \$70 million in NHFP funds per year through 2031 (Table 3). Appendix A lists all the projects with existing or planned NHFP funding pursuant to the IIJA. Figure 3 shows the locations of these projects.

Table 3 | NHFP Funding and Spending Summary Updated Oct 2025

Fiscal Year	Estimated NHFP Funding* **	Estimated NHFP Project Cost ***	Estimated Cumulative Spending
2016	\$53,926,568	\$-	
2017	\$51,581,934	\$38,711,324	\$38,711,324
2018	\$56,271,202	\$78,797,882	\$117,509,206

NHFP Funding by Type

The NHFP funded projects are selected based on their priority, cost, and ability to improve freight bottlenecks, congestion, level of service, and other factors in freight mobility. Projects with anticipated NHFP funding include truck parking, operational improvements, roadway widening, and interchange construction. Table 3 summarizes Florida's yearly allotment of NHFP funds. Table 4 shows project types and investment totals for the NHFP. Those projects anticipated to receive NHFP funds can be found in Appendix A.

Table 4 | 2017-2023 Total NHFP Funding by Project Type

Project Type	Estimated Funding
Capacity	\$465,519,461
ITS	\$34,993,853
Pre-Planning	\$114,946,266
Truck Parking	\$148,886,415
Bridge	\$38,519,438
Total	\$802,865,433

NHFP Match **Updated Oct 2025**

NHFP investments are supported by a significant match of state and local funds pursuant to IIJA/Fixing America's Surface Transportation (FAST) Act requirements. Totaling over \$1 billion, these matching funds are utilized in conjunction with NHFP funding to ensure project needs are met from the local to state level. Appendix B provides more detail on matching funds.

Freight Projects Across the Modes

The NHFN and its supporting systems are a critical asset by which the growing Florida economy is supported. The nature of the NHFN directs funding mainly toward highway projects; however, to maintain the ability of the freight highway system to support this growth, intermodal systems will need to be utilized as a higher mode share. FDOT has a Modal Development Work Program total of \$6.4 billion between FY2024 and FY2028 allocated for aviation, transit, seaports, intermodal access, rail, and transportation disadvantaged communities.⁴ While FDOT maintains plans and investment portfolios for these mode shares, the FMTP will relate to those as the increased need for intermodal connectivity has become a critical aspect of both Florida and the IJIA. The following snapshots show a closer look at FDOT modal investments.

Seaport Investments

Florida is the gateway to the Southern Hemisphere and that is no more evident than in the network of deepwater seaports supporting domestic and international trade. Strategic investments at Florida's seaports have focused on positioning the state for future growth. As ships around the world are being built bigger, Florida is continuing to invest in channel and harbor dredging and deepening to accommodate them, as well as additional intermodal access to improve the throughput of additional cargo. With \$0.6 billion in total funding through FY28 across multiple funding sources, the extra 30 percent in intermodal additions from the NHFP will be a critical asset to reducing the costs of transition between seaport and highway freight. Figure 4 highlights a few of the recent port projects as well as the funding sources that are used for seaport investments.

Railroad Investments

Florida's railroads carried 39.5M originated rail tons and 57.2M rail terminated tons across 3,858 miles of track in 2021, moving everything from general merchandise and construction aggregates to specialized goods such as compressed fuels and natural gasses, and providing an alternative to highway freight movement. Rail service is critical to everything from South Florida crops moving out of state to Jacksonville's roll-on/roll-off cargo. With \$0.8 billion in funding across multiple funding sources from FY24-28, investment in freight rail will continue as a critical mode of freight movement in the state. Figure 5 highlights a few of the recent FDOT freight rail investments as well as the funding sources that can be used for them.

⁴ [FiveYearWorkProgramCharts.pdf \(state.fl.us\)](#)

Figure 3 | Seaport Investments

Figure 4 | Freight Rail Investments

Airport Investments

Florida's airports are a cornerstone of the state's global economy. In particular, Florida's international airports handle significant and increasing air cargo volumes, with Miami International Airport leading the way as America's busiest airport for international freight.⁵ To combat land availability issues, MIA is investing in a Vertically Integrated Cargo Community (VICC) that would stack cargo vertically and create capacity to process 4.95 million tons of cargo per year – nearly double what the entire airport handles now.⁶ Investments made into Florida's airports ensure that they remain a viable alternative for critical need and high value freight. With \$1.7 billion in investments through FY28, airports are poised to remain a lynchpin of Florida's intermodal freight systems. Example projects and funding sources are shown in Figure 6.

⁵ https://miami-airport.com/about_us.asp

⁶ <https://miamiairportwarehouses.com/miami-dade-to-consider-proposal-for-1-1b-cargo-hub-at-mia/>

Figure 5 | Airport Investments

Spaceport Investments

The space industry in Florida is a growing economic and freight generator with unique funding mechanisms. As launches become more frequent with increases in private sector investments, it is critical to ensure that the freight needs of this high-value industry are met. Through 2028, approximately \$600 million is programed in the 5-Year Work Program for Spaceport Improvement Program (SIP) projects. Most of the program funds are used for capital improvements and a small percentage is used to support program implementation.⁷ Continued funding made through commercial investment, the SIP, as well as the SIS network and NHFN, will ensure that connections to Florida's spaceports are safe and secure for increased space flight capacity. Figure 7 shows example investments and funding sources.

⁷ [Spaceport Improvement Program, 2023-2024](#)

Figure 6 | Spaceport Investments

Summary

This technical memorandum outlines the currently allocated fiscally constrained funding for the next five years. This fiscally constrained funding plan meets FAST ACT and Bipartisan Infrastructure Law (BIL)/IIJA requirements and represents an important implementation tool for FDOT. Implementation of these projects and the FMTTP strategies are necessary to solve critical freight mobility needs as identified by analysis and stakeholder input.

These funds do not reflect NHFP funded projects which have been completed as of 2025
Fiscal years beyond 2025 include projects tentatively programmed based on anticipated future NHFP funding
*These projects are being funded through the BIL intermodal language under 23 U.S.C. 167(h)(5)(B) and are under the 30% yearly limit
