ROADWAY DESIGN BULLETIN 11-10

DATE: July 1, 2011

TO: District Directors of Transportation Development, District Design Engineers, District Construction Engineers, Plans Preparation Manual Holders

FROM: David C. O'Hagan, P.E., State Roadway Design Engineer 

CC: Brian Blanchard, Duane Brautigam, David Sadler, Robert Robertson,

SUBJECT: Special Events

BACKGROUND:

The FDOT Specifications (Article 1-3, and Subarticles 8-3.3, 8-6.4, 8-7.3.2, 450-11.1, and 611-4) are being changed for implementation in the January 2012 Workbook to define and address "Special Events." These changes require any Special Events anticipated within the duration of a construction contract, that have a direct impact to traffic within the project limits, to be listed in the plans. For Design Build projects, the Special Event days will be listed in the RFP. Coordinate with the District Construction Office for the Special Events occurring in the contract time period that will impact the traveling public within the contract area.

REQUIREMENTS:

This design bulletin revises the requirements in the Plans Preparation Manual (PPM) Volume 2, Chapter 10 to address the Special Events. Insert the following note #9 to the list of General Notes in Exhibit 10-1 as follows:

9. *Per FDOT Specification 8-6.4, Suspension of Contractor's Operations-Holidays and Special Events, Special Event days for this project include:
(List any applicable Contract Specific Special Events)*

DESIGN IMPLEMENTATION:

These changes are effective on applicable projects beginning with the January 2012 letting, and will be represented in the PPM with the January 1, 2012 update.

CONTACTS:

For design related issues, contact:

Frank Sullivan, PE

Roadway Design Administrator
