REINFORCED CONCRETE

TYPE A

SECTION AA

Note: Class I concrete is to be used unless otherwise noted in plans or special provisions.

GENERAL NOTES

1. Tractor crossing shall be paid for under the contract unit price for Tractor Crossing, EA.

TRACTOR CROSSINGS

TREATED TIMBER

TYPE B

SECTION BB

Note: Tractor crossing to be constructed to match pavement cross slope.

The number of mats required will vary with the pavement width. A sufficient number of mats will be used so that the tractor crossing will extend a minimum of four feet (4') beyond roadway shoulders.
