

FENCING.

(REV 1-6-98) (7-02)

ARTICLE 550-2 (Page 681). The text is deleted and the following substituted:

The type of fence to be constructed is designated as follows:

Type A (Farm Fence).

Fabric: Galvanized steel woven wire farm fence.

Line Posts: Recycled Plastic.

Corner, Pull and End Post Assemblies: Galvanized steel, timber, recycled plastic or concrete as specified in the Design Standards.

Type B (Chain-Link Fence).

Metal posts, fabric and accessories as specified in the Design Standards.

Type R (Chain-Link Fence for Pedestrian Overpass).

Metal posts, fabric and accessories as specified in the plans.

SUBARTICLE 550-3.5 (Page 682). The first paragraph is deleted and the following substituted:

For Type A Fence, only one optional material will be permitted within a corner, pull and end post assembly.

SUBARTICLE 550-6.2 (Pages 684 and 685). The second sentence is deleted and the following substituted:

The first line posts, approach posts and brace posts will be considered as part of the assembly of the corner, end or pull post being paid for separately, regardless of whether corner, end or pull post serves as a brace in more than one direction.
