

DIRECTIONAL BORE.

(REV 2-3-00) (7-02)

PAGE 686. The following new Section is added after Section 550.

SECTION 555 DIRECTIONAL BORE

555-1 Description.

Perform Directional Bore of pipes or casings in accordance with the State of Florida Department of Transportation Utility Accommodation Manual, dated June 1993, referred to as Document No. 710-020-001-C. This information may be viewed on the Department's web site at the following URL: <http://www11.myflorida.com/rddesign/utilities/files/93spec.pdf> .

555-2 General Requirements.

A Department Inspector must be on the job site for all Directional Bores crossing a State Highway.

555-3 Method of Measurement.

The length of Directional Bore to be paid for will be the actual number of feet [meters] of the crossing, measured along the centerline of the pipe or casing. No additional payment will be made for the extra length of pipe or casing which extends beyond the ground slope.

555-4 Basis of Payment.

When a separate pay item is listed in the plans, the Contract unit price per foot [meter] for Directional Bore will be full compensation for the installation of pipe or casing, as specified in this Section. Payment for pipe or casing materials will be included under the item which is to be installed by Directional Bore.

When a separate pay item is not listed in the plans, all work specified in this Section will be included for payment under the item to which it is incidental.

Payment will be made under:

- Item No. 555-1- Directional Bore - per foot.
- Item No. 2555-1- Directional Bore - per meter.
