

**931 METAL ACCESSORY MATERIALS FOR CONCRETE PAVEMENT
AND CONCRETE STRUCTURES - CERTIFICATION.**

(REV 11-27-00) (FA 3-20-01) (1-02)

SUBARTICLE 931-2.1 (Pages 853 and 854) is expanded as follows:

The Contractor shall provide the Engineer a certified test report from the manufacturer of the sheet metal bottom strips confirming that the requirements of this Section are met. The certified test report shall conform to the requirements of Section 6 and include test results for thickness, dimension, grade, length, size, and spacing. Each certification shall cover only one type of metal materials for joints.

SUBARTICLE 931-2.3 (Page 854) is expanded as follows:

The Contractor shall provide the Engineer a certified test report from the manufacturer of the dowel bars confirming that the requirements of this Section are met. The certified test report shall conform to the requirements of Section 6 and include metallurgical mill analysis, grade, length and size. Each certification shall cover only one LOT for dowel bars.
