

**PRIME AND TACK COATS FOR BASE COURSES – METHOD OF MEASUREMENT.**

**(REV 4-11-02) (1-03)**

SUBARTICLE 300-9.1 (of the Supplemental Specifications) is deleted and the following substituted:

**300-9 Method of Measurement.**

**300-9.1 General:** The quantity to be paid for will be the volume, in gallons [liters], of bituminous material actually applied and accepted. This quantity will be determined from measurements made by the Contractor and verified by the Engineer based on tank calibrations, as specified in 300-9.2. Where it is specified that prime coat material or tack coat material is to be diluted with water, the quantity to be paid for will be the volume after dilution.

Provide a Certified Invoice on the form provided by the Department, no later than twelve o'clock noon, Monday after the monthly cutoff date, or as directed by the Engineer, based on the quantity of prime or tack coat placed and accepted. The progress estimate may be held if the Contractor fails to submit the required Certified Invoice.

Show the following on the Certified Invoice:

Invoice Number and period represented by the Invoice,  
Contract, FPID and State Project Numbers,  
Type of bituminous coat placed,  
Gallons [Liters] based on the criteria specified in this Subarticle.
