

**951 INSPECTION OF TIMBER PRODUCTS.**  
**(REV 11-13-01) (FA 1-3-02) (7-02)**

ARTICLE 951-1 (Page 894) is deleted and the following substituted:

**951-1 Control of Quality.**

All timber products manufactured for incorporation into the work shall be produced by a producer/treater approved by the Department for such production. If approval is withdrawn by the Department during production for a construction project, it is the Contractor's responsibility to (a) obtain another approved producer/treater to produce the timber products, or (b) await reestablishment of approval of the disapproved producer/treater. Cost or delays associated with producer/treater approval or disapproval shall be borne by the Contractor.

The producer/treater of timber products shall exercise quality control through an approved Quality Control Plan conforming to Section 6-8. Products produced under this Quality Control Plan will not relieve the Contractor of his responsibility for unsuitable materials or workmanship, which might become apparent at the job site, nor of the necessity of his replacing any material which might be determined upon subsequent inspection to be unsuitable.
