

Judy,

Based on the discussion at the Flexible Pavement Committee Meeting, the subject specification change is revised as shown in the attachment. Please process the specification change for us.

Thanks - David

**PLACING MIXTURE-ALIGNMENT OF EDGES.
(REV 8-28-02)**

SUBARTICLE 330-9.1.1 (of the Supplemental Specifications) is deleted and the following substituted:

330-9.1.1 Alignment of Edges: Lay all ~~asphaltic~~ **asphalt** concrete mixtures, including leveling courses, other than *the pavement edge just adjacent to curb and gutter or other true edges*, by the stringline method to obtain an accurate, uniform alignment of the pavement edge. *Control the unsupported pavement edge to ensure that it will not deviate more than ± 1.5 inches [76 38 mm] from the stringline.*
