

The attached spec has been revised per the comments received.

Responses to Marshal Dougherty : AASHTO LRFD mentioned in the spec is the exact name of the bridge design code.

Responses to J. Dugo:

1. Title revised as requested.
2. Specialty Engineer is defined in Section 1.
3. Not at this time.
4. No change. Will re-evaluate if this is a problem but we know the current process works well.
5. Deleted the "wire-fed" requirement.
6. Revised temperature requirements as suggested.
