

**125 EXCAVATION FOR STRUCTURES AND PIPE-ACCEPTANCE PROGRAM.
(REV 6-5-03) (FA 8-6-03) (1-04)**

SUBARTICLE 125-9.3 (Page 173) is deleted and the following substituted:

125-9.3 Additional Requirements:

125-9.3.1 Frequency: Conduct QC maximum density sampling and testing at a minimum frequency of one test per soil type. The Verification test will be at a minimum of one test per soil type:

Test Name	Quality Control	Verification
Maximum Density	One per soil type	One per soil type
Density	One per LOT	One per four LOTs and the first lift not affected by water
Soil Classification	One per maximum density	One per maximum density
