Comments:

Suggest using the same language for this that is in the Jack and Bore specification 5560301. Unless it is your intent to only address times utilities are exposed, not when sidewalk areas have been disturbed.

Comments:

1. Use a more generalized statement, as written in the 5560301 Jack & Bore Spec.556-3.1b, "...eliminate the 'designed' use of..." instead of "...expose utilities through..." so that this statement includes any type of disruption to the use of the sidewalks.
