Comments:

'And 971-8' is referenced in the first sentence of 713-2. This is being deleted in 9710800 currently out for review. Suggest you delete the reference to it from here also.

**Response:** The original paragraph 971-8, referring to "Thermoplastic Materials for Raised Rib Shoulder Warning Devices" is what is being deleted. The reference to 971-8 to be retained in the 9710800 currently out for review refers to "Permanent Tape Materials for Pavement Stripes and Markings" which is correct for Section 713.
