Comments:

We have retrieved the referenced document from the [State Specifications Office's Industry Review intranet website](#). Pursuant to request, we have reviewed the document, entitled "Compacting and Finishing Base - Density Tests," and offer the following comments for your consideration.

We do not understand the need to change the spec book to replace the word "lot" with "section."

Thank you for the opportunity to provide input. If you have any questions or need additional information, please do not hesitate to contact me, at (850) 415-9200.
