

162 PREPARED SOIL LAYER-DESCRIPTION.

(REV 2-16-07) (FA 2-28-07) (7-07)

SUBARTICLE 162-1.1 (Page196) is deleted and the following substituted:

162-1.1 Finish Soil Layer: Unless otherwise called for on the plans, prepare a 6 inch thick layer of existing soil mixed with imported material, if necessary to achieve the pH and organic matter levels required in Section 987, that is favorable to turf and ground cover growth over areas of the project which are to be seeded, seeded and mulched, or planted, by mixing in an organic material, compost, or commercially available soil amendments. Prepare finish soil layer in areas to be sodded, when called for on the plans.
