Comments:

The last sentence should say " Obtain Precast Concrete Sound Barrier components from a manufacturing plant that is currently on the list of incidental concrete Producers with accepted Quality Control Programs for Sound Barrier walls"

Response:

This proposed change brings 534 into alignment with other Specification Sections that already linked to a Materials Manual Section or in the case of 534, should have been linked, but was not. The particular requirement for incidental precast products is now located in 105-3. All Sections now contain this generic language. No change made.

John Previte

Comments:

Other similar proposed specs (for ITS and Signing) has 'Programs' plural

534-1 Description.

Furnish and install sound barriers with pile, posts and panels constructed in accordance with Design Standards Index Nos. 5200 thru 5204 or with pre-approved alternatives listed on the Department's Qualified Products List (QPL), unless the plans otherwise indicate limitations based on specific design or aesthetic criteria unique to the project.

Obtain Precast Concrete Sound Barrier Components from a manufacturing plant that is currently on the Department's list of qualified precast concrete plants *Producers with Accepted Quality Control Programs. Producers seeking inclusion on the list shall meet the requirements of 105-3.*

Response:

Change made by Specifications Office.
