Re: Office of Design, Specifications
Section 110
Proposed Specification: 1100601 Removal of Existing Structures – Structures to be
Removed

Dear Dr. McCarthy:

We are submitting, for your approval, two copies of a proposed Special Provision for Removal of Existing Structures – Structures to be Removed.

This change was proposed by David Sadler, State Office of Construction to meet the requirements of SAFETEA-LU legislation to define the Contractor's role in making the debris from bridge demolition available to local, state, and federal agencies for their beneficial use (shore erosion control or stabilization, ecosystem restoration, and marine habitat restoration)..

Please review and transmit your comments, if any, within two weeks. Comments should be sent via Email to SP965DB or duane.brautigam@dot.state.fl.us.

If you have any questions relating to this specification change, please call Duane F. Brautigam, State Specifications Engineer at 414-4110.

Sincerely,

Duane F. Brautigam, P.E.
State Specifications Engineer
