

**965 GENERAL PROVISIONS FOR ALUMINUM ITEMS (INCLUDING WELDING)
– CERTIFICATION AND MILL ANALYSIS.
(REV 8-11-08) (FA 8-12-08) (1-09)**

ARTICLE 965-2 (Page 858) is deleted and the following substituted:

965-2 Certification and Mill Analysis.

For aluminum materials used, submit to the Engineer, prior to installation, a certified mill analysis and certification by the producer that the parts and components are of the alloys specified and comply with the requirements of this Section.
