Comment:

603-2.1 General: Except as provided in 603-2.2, only use traffic control signals *and* devices meeting the requirements of the Minimum Specifications for Traffic Control Signals *and* Devices (MSTCSD), *the Specifications*, and listed on the Department's Approved Product List (APL).

Are "the Specifications," different from the "Minimum Specifications for Traffic Control Signals"? If so, this is fine as written. If they are the same, it is confusing to list them twice.
