Monica Gourdine  
Program Operations Engineer  
Federal Highway Administration  
545 John Knox Road, Suite 200  
Tallahassee, Florida 32303

Re: Office of Design, Specifications  
Section 715  
Proposed Specification: **7151600 Highway Lighting System – Method of Measurement**

Dear Ms. Gourdine:

We are submitting, for your approval, two copies of the above referenced Supplemental Specification.

We issued this specification as a mandatory revision to the January 2010 Workbook to include the cost of the foundation in the cost of the High Mast Light Pole, Complete pay item. Including the cost of the foundation in the cost of the pole has always been the intent for high mast lighting complete, and is consistent with other similar items such as Light Pole Complete, Mast Arms and Overhead Signs.

If you have any questions relating to this specification change, please contact Rudy Powell, State Specifications Engineer at 414-4280 or Email at [rudy.powell@dot.state.fl.us](mailto:rudy.powell@dot.state.fl.us).

Sincerely,

Rudy Powell, Jr., P.E.  
State Specifications Engineer
