Comment: (6-18-10) We are not in favor of the proposed spec revision. The new spec is confusing on whether there is an initial payment. Also, new spec does not specify % of payment for initial & Final payment or a guide to be used.

Response: References to final payment will be removed. Article 9-8.1 will be expanded to include submittal of as-built drawings.

Comments: (6-21-10) 1. Under 611-2.3.3 it states, "Final payment is contingent upon submittal and Department acceptance of the as-built drawings." What final payment, of the job or the pay item?<<>> 2. 6110203/Acceptance Procedures for Traffic Control Signals and Devices; 611-2.3.3 Compensation; recommend addition to between first and second sentence: "Providing of as-built drawings will be included in the cost of the installation and will not be paid for separately".

Response: 1. References to final payment in 555-8 will be removed. Article 9-8.1 will be expanded to include submittal of as-built drawings. 2. No changes made.
