916-4.1:

1. Table “Emulsified Asphalt Grade CRS-1h”

The two notes at the bottom of the table need to have an “a” and “b” placed in front of them, respectively, to match the notations in the table.

Response:

Agreed. Changes made.

2. Table “Emulsified Asphalt Grade NTSS-1hm”

The note at the bottom has a “c” in front of it and it should have an “a” in front of the note instead of the “c”.

Response:

Agreed. Changes made.

Parenthetically define first usage of acronyms, e.g., PG and AMRL.

Response:

Agreed. Changes made.
