Re: Office of Design, Specifications
Section 962
Proposed Specification: 9620802 Structural Steel and Miscellaneous Metal Items (Other Than Aluminum) – Steel Sheet Piling.

Dear Ms. Gourdine:

We are submitting, for your approval, two copies of the above referenced Supplemental Specification.

These changes were proposed by Larry Jones to correct and update ASTM references. ASTM A-709 does not address sheet piles, and ASTM A-572 is a common material assumed during design and does not require approval by the Engineer.

Please review and transmit your comments, if any, within two weeks. Comments should be sent via Email to ST986RP or rudy.powell@dot.state.fl.us.

If you have any questions relating to this specification change, please call Rudy Powell, State Specifications Engineer at 414-4280.

Sincerely,

Rudy Powell, Jr., P.E.
State Specifications Engineer
