The first sentence of 534-1 refers to concrete sound barriers with pile, posts and panels constructed in accordance with Design Standards Index No. 5200. Should this be expanded to add 'thru 5206' or list other 5200 series indexes? Index 5200 is the general notes and does include a reference to indexes 505 and 506.

Response:

From the Specifications Office: Standard Index Nos. 5201 thru 5207 are being deleted from the Design Standards.

Suggest renaming the pay Item to “ Concrete Sound Barrier Wall” or “Sound Barrier Wall (Concrete)”
