

(REV 12-9-10) (FA 1-27-11)(7-11)

2-4 Examination of Contract Documents and Site of Work.

Direct all questions to the Department by posting them to the Department's website at the following URL address:

_____ at _____.

The Department does not guarantee the details pertaining to borings, as shown on the plans, to be more than a general indication of the materials likely to be found adjacent to holes bored at the site of the work, approximately at the locations indicated. The Contractor shall examine boring data, where available, and make his own interpretation of the subsoil investigations and other preliminary data, and shall base his bid on his own opinion of the conditions likely to be encountered.

The bidder's submission of a proposal is prima facie evidence that the bidder has made an examination as described in this Article.
