I have reviewed the above referenced Industry Review Specifications and have the following comment: The term “LED” should be defined in the applicable Specification of which it is contained. I have no other comments at this time.

Change: “EIA/TIA-232 and TIA 422” to “EIA/TIA-232 or TIA 422.” Explanation: EIA/TIA-232 & TIA-422 are mutually exclusive, each District selects one or the other for their video encoders/decoders.
