

EXPECTED IMPLEMENTATION JANUARY 2013

665 PEDESTRIAN DETECTOR ASSEMBLY. **(REV 1-31-12) (FA 5-22-12) (1-13)**

ARTICLE 665-6 (Page 767) is deleted and the following substituted:

665-3 Installation.

Meet the requirements of 653-3.1, except as follows. Connect the lead-in wires to the detector in order to provide proper operation when connected to the controller.

Install the pedestrian detector assembly at the location and mounted in a manner as shown on the plans and Design Standards, Index No. 17784 (Pedestrian Detector Assembly). Ensure that all detectors used are of the same manufacturer and model.

Consider the plans to be sufficiently flexible as to allow for unanticipated field conditions at the site. The Engineer will direct any variation from the locations shown. When mounting, place the detector housing or saddle in complete contact with the pole or controller cabinet. When a post is required in the installation of the pedestrian detector assembly, restore the area around the post to its original condition or as required by the plans.
