D4 Construction

Comment: (12-27-12)

Dist. 4 Const. has no comments but suggest you get buy-in from Maintenance on the 3 years.

Response: The Construction office contacted Maintenance to discuss this issue. The Maintenance Office has some concerns about the 3 year requirement for degradability being too long. However, the Department's requirement of bio-degradability within 3 months of installation for sod netting has been waived for several years because we could not find a product to meet the criteria. The Department will continue to work with industry to shorten the time frame.
