Comment: (6-26-13)

7-24.5 Counting DBE Participation and Commercially Useful Functions: 49 CFR Part 26.55 specifies when DBE credit shall be awarded for work performed by a DBE. DBE credit can only be awarded for work actually performed by DBEs themselves for the types of work for which they are certified. When reporting DBE Commitments, On the Anticipated DBE Participation Statement only include the dollars that a DBE is expected to earn for work they perform with their own workforce and equipment. Submit a revised Anticipated DBE Participation Statement Update DBE Commitments to reflect changes to the initial Anticipated DBE Participation Statement within 14 business days from the date of the change amount that was previously reported or to add DBEs not initially reported.
