After talking with Larry and Jeff, we decided to change the web link to <http://state.ceris.purdue.edu/>, the national pesticide information system managed by Purdue University. We can make this an administrative change for January 2015, if ok with everyone.

Thanks.

This link is not working and there is not a redirect page. I thought they were going to provide a redirect page. I am giving the DCEs the new link, but wanted to see if you knew when they are going to fix it.

discovered, immediately cease an activity that may disturb the unmarked human and notify the Engineer. Do not resume activity until specifically authorized by the Engineer.

7-1.7 Insecticides and Herbicides: Use products found on the following <http://www.flpesticide.us>, approved by the Florida Department of Agriculture for use in Florida. The use of restricted products is prohibited. Do not use any products in the same family of chemicals. Herbicide application by broadcast spraying is not allowed.

Procure any necessary licenses, pay all charges and fees, and give the Engineer a copy of the license.
