Comments: (6-29-15)

A reviewer of this spec asked a question about the rate for jobs \$20M and over so I went back over the data for that job range, the figure for LDs should be \$6,323/day instead of \$10,198.

\$20,000,000 and over ..... <del>\$9,788</del> <b>10,198</b> <del>6,323</del> plus 0.00005 of any amount over \$20 million (Round to nearest whole dollar)
------------------------------------------------------------------------------------------------------------------------------------------------------------

Can you make that change since the spec is still out for review? Closes July 1<sup>st</sup>.

Response: Change has been made.
