9-2.1.2 says "Ensure the certification includes the Contract Number, Financial Project Identification (FPID) Number, Certification Date and Number, the period the certification represents and the tons produced for each asphalt pay item." Consider that not all work within FDOT right of way is related to a work program project. The language in this section or a newly created section will need to reference a "Permit Number, Work Order Number, and so on".

Response: The highlighted language below was repeated in some of the pavement Specifications. The intent of the language has not been changed; we are only removing repetitive language. This language is not applicable for Maintenance jobs.
