455-51 Proposed text: "After meeting the time requirements of 455-44(15), the Contractor may place panels prior to a complete submittal of the Certification Package at ~~its~~their own risk. If the Engineer determines that verification testing is needed, the Contractor ~~sh~~will perform all work and provide all labor, at no additional ~~expense~~cost to the Department, ~~any work and labor~~ necessary to allow access to the piles ~~need~~requiring verification. Replace, or redesign and re-construct, to the satisfaction of the Engineer, any foundation found to be unacceptable after submittal of the certification packages or after verification testing, at no ~~expense~~cost to the Department."

1. First sentence , in lieu of "panels use same text as para 15, "wall panes or other significant loads".

Response:

2. Last sentence, suggest removing "or redesign, and re-constructing", since the text already says "replace". Since this is for design-build "cost" or "expense" will include design.

Response:
