705-3 Installation Requirements. Install delineators and object markers in accordance with the MUTCD, Design Standard Plans and Plans. Remove "and Plans"

Response: The "Standard Plans" and "Plans" are different documents. Plans refer to the Contract Plans and Standard Plans are standards for design. See proposed changes for Specification, Section 1-3, which will provide a definition for "Standard Plans" (previously referred to as Design Standards) and has an existing definition for "Plans".
