Under 110-3.1 the comment "Only mechanical equipment related to selective clearing and grubbing activities will be allowed in these areas." is added. Under 110-3.3 the last sentence is "Do not bring equipment into these areas." Should the sentence in 110-3.3 be the same as 110-3.1 or deleted all together?

Response: 'Plant Preservation Areas' are different than 'Selective Clearing and Grubbing Areas' and require different treatment. There is no equipment allowed inside of 'Plant Preservation Areas' where 'mechanical equipment related to selective clearing and grubbing activities' is allowed inside of 'Selective Clearing and Grubbing Areas'. To clarify this fact, the word "these" was changed to "selective clearing and grubbing".
