Article 671-2. NEMA TS-1-1989 is removed from THIS spec but is showing up in the following specs: 660-2.1.2.1.1, 676-2.2, 678-2. My question is: Wouldn't this be removed from these specs as well? Article 671-2. NEMA TS-2-2003 has been changed to NEMA TS-2-2016. NEMA TS-2-2003 is still showing up in the following specs: 660-2.1.4, 670-2, 676-2.1, 678-2, 676-2.2, 660-2.1.2.1.1. My question is: Wouldn't this be revised in these specs as well? Article 671-2.

CALTRANS TEES, 2009 is removed from this spec but is showing up in the following specs: 676-2.3 and 678-2.

Response: No changes are needed to 671 in response to these comments. All national standard references (NEMA, TEES, and others) in other ITS Specs will be reviewed and updated as needed in a future spec update.
