INDUSTRY COMMENTS AND RESPONSES

(Please note all comments and responses are verbatim as received. The Specifications Office does not alter typos or grammar.)

BLACK = Comment **BLUE** = Specifications Response **GREEN** = Change Made to Specification

Name: Staes

Date: 7-27-25

COMMENT: Please change Maintenance of Traffic (MOT) too Temporary Traffic Control (TTC)...there could be legal ramifications having both descriptions for Traffic Control

RESPONSE: We will consider this.

ACTION TAKEN: None.

Name: Neil A. Monkman

Date: 7-30-25

COMMENT: My understanding of the equipment to manually operate any traffic signal is that it has to be hard wired into the cabinet. Has the Department considered that this may require two (2) officers either when specified as a pay item or required as part of a contract LS pay item?

RESPONSE: Based on discussion with industry and a demonstration of the device, they are not hard wired. They plug into the cabinet and are universal. The officers typically have one with them, however, if they do not, this will ensure one can be provided for them. Two officers should not be necessary. The intent is to have one traffic office have the option to control the intersection out of the roadway with the manual traffic signal device at the cabinet.

ACTION TAKEN: None.

Name: Joshua Toole

Date: 7-31-25

COMMENT: Concerning both 1020700 & 7060600. New pay item created under 102 for temporary RPMs. Language in the details of each structure to be updated to reflect these changes.

RESPONSE: Thank you, Joshua.

ACTION TAKEN: None.
