AWARD AND EXECUTION OF CONTRACT – CONSIDERATION OF BIDS (A+B BIDDING).
(REV 11-4-26) (FA 1-20-98) (FY 2027-28)

ARTICLE 3-1 is deleted and the following substituted:

For the purpose of award, each bid submitted shall consist of two parts whereby:

Standard Bid (A) = The correct summation of the products of the estimated quantities shown in the proposal, multiplied by their bid unit prices.

Time Bid (B) = (CD x Daily Value) = the product of the number of calendar days provided by the Contractor and the Daily Value established by the Department.

For purposes of this Contract, the Daily Value is $_____.

The lowest evaluated bid (Total Bid) will be determined by the Department as the lowest sum of (A) plus (B) according to the following formula:

Total Bid = Standard Bid (A) + Time Bid (B)

Time Bid (B) from the preceding formula will not be used to determine final payment to the Contractor. All payments will be based on actual quantities and bid unit prices. The DBE utilization goals and bonding requirements will be applied to the Standard Bid (A) only. The Contract Time item will only be shown on the lead project on Contracts with multiple projects but will cover all work for all projects within the Contract. Until the actual award of the Contract, however, the Department reserves the right to reject any or all Proposals and to waive technical errors that the Department determines, in its sole discretion, to be in the best interest of the State.

The Department reserves the right to delete the bid portion of the utility relocation work from the Contract. When the Department deletes utility relocation work from the Contract, the Department will recalculate the Contract bid tabulations based on the remaining project quantities.

In the event that the Department deletes utility relocation work from the Contract, the utility owner will relocate such utilities in accordance with the backup Utility Relocation Schedule contained in the Contract Documents.
