2020

Urban Area Boundary (UAB) Submissions Template

February 2024

Please SUBMIT one document for every Urban Area Boundary (UAB)

Introduction

This section should include:

District Point of Contact

Consultant Point of Contact (if necessary)

Overall map of the District with county boundaries and urban areas highlighted.

Urban Area Boundary Information

This section is required to list the geographic information of the urban area boundary for the reviewer including:

- Name of Urban Area
- County (ies)
- Incorporated entities, cities, and town boundaries.
- Metropolitan Planning Organizations or Transportation Planning Organization (TPO)
- Major Transportation Hubs (Airports, Seaports, Intermodal Hubs, Railroads, and others)

Approach for Adjustments

This section should describe your approach for adjustments that should include:

- Overall approach of adjusting of an urban area boundary
- GIS tools used.
- Data Sources (aerial imagery, land use developments,
- Map or Screenshot of Urban Area Boundary adjustments.

The section should further identify ALL major adjustments. Example adjustments are below:

- Included areas with Urban Characteristics (planned and approved developments)
- Included large/significant traffic generators.
- Boundary follow municipal limits or physical features.
- Boundary should not split roadways or ramps.

For each major adjustment (s), kindly include **justification (s)** and present a detailed map that illustrates the census-defined urban area, adjusted urban area boundary, and any supplementary details/labels that will substantiate the **justifications** for the adjustment.

Stakeholder Engagement

This section should provide the following information:

- Documentation on the cooperative process (including concurrence from State and local officials (meeting agenda, meeting notes, and correspondence)
- List of the local entities involved
