MILEMARK | Mile Marker Sign
--- | ---
Roadside: C/R/L | Feature Type: Point | Interlocking: Yes

**Definition/Background:** Records the location of mile marker signs posted along the roadway.

**Responsible Party for Data Collection:** District Planning

**Required For:** All interstate, tolled or non-tolled expressway facilities, and US routes

**How to Gather this Data:** Collect and enter the number displayed on the mile marker. One decimal place is provided for coding mile markers located at 1/10th of a mile increments.

**Special Situations:** May also be used for call boxes that are located at integral milepoints instead of the usual mile marker signs.

**Value for Mile Marker Sign:** 4 Bytes: XXX.X – Record 4-digit mile marker number
