HISTORIC PRESERVATION

Attention: Ginny Jones

Dear Ms. Jones;

The Florida Department of Transportation (FDOT), District 4, is currently conducting a Project Development & Environment (PD&E) Study to evaluate alternatives to improve SR 869 (SW 10th Street) from the Sawgrass Expressway/Florida's Turnpike to west of I-95, a distance of approximately 3.0 miles. The alternatives include placing two roadway facilities within the SW 10th Street Corridor. One facility proposed is a four-lane managed lanes roadway to provide a limited access connection from the Florida's Turnpike / Sawgrass Interchange to I-95. The other facility is a four-lane, divided, local roadway with bicycle lanes and sidewalks. Each of the alignments consist of four 12-foot managed lanes, two in each direction separated by a median barrier wall with 8 to 12-foot inside and outside shoulders; four 11-foot local travel lanes separated by a 15.5-foot median; and bicycle lanes and sidewalk. Although the limits of this project extends to west of I-95, this study extends only to Military Trail and the easternmost portion is included within the limits of the CRAS PD&E Study for SR 9/I-95 from south of SW 10th Street to north of Hillsboro Boulevard (FM No. 436964-1-22-01), currently in progress.

No newly or previously recorded archaeological sites were identified within the archaeological Area of Potential Effect (APE). Seven shovel tests were excavated within the project area. No cultural material was recovered during the pedestrian survey or subsurface testing. No subsurface testing could be conducted in most of the project area due to the presence of existing pavement, drainage ditches, and buried utilities.

The historic resources survey resulted in the identification of one newly identified historic structure. This structure, located at 3165-3175 SW 10th Street, Deerfield Beach, Florida (8BD6685) is of Masonry

Vernacular style construction. The structure lacks historical associations and physical integrity; therefore, it is considered National Register–ineligible.

The District has determined that no historic properties will be affected by the proposed project. I respectfully request your concurrence with this determination. If there are any questions, please feel free to contact me at (954) 777-4324 or Lynn Kelley at (954) 777-4334.

Sincerely,

Ann Broadwell
Environmental Administrator
FDOT - District 4
