**A DOA IS REQUIRED FOR EACH SECTION 4(f) PROPERTY AND PROPOSED ALTERNATIVE.**

**Project Description including Section 4(f) Specific Information:**

Project Description including Section 4(f) Specific Information:

This project proposes improvements to the I-95 partial cloverleaf interchanges at SW 10th Street and Hillsboro Boulevard and along I-95 from just south of the SW 10th Street interchange to just north of the Hillsboro Boulevard interchange (a distance of approximately 1.8 miles not including the length of the ramps). The project also proposes improvements along both SW 10th Street and Hillsboro Boulevard in the vicinity of I-95. The logical termini along SW 10th Street extends from just west of Military Trail east to SW Natura Boulevard, a distance of approximately 0.95 miles. Along Hillsboro Boulevard the improvements extend for approximately 0.97 miles from Goolsby Boulevard east to SW Natura Boulevard.

There are five resources that occur near or alongside the proposed project area, specifically near the NW 10th Street Interchange. Four of the five resources appear to be Section 4(f) resources, and the fifth (the teen center) does not qualify as a resource. No Section 4(f) use is proposed to all five areas because no right of way will be required from these resources. All are located a distance from the project alternatives; access to all properties will be maintained during construction. See enclosed maps showing each resource in relationship to the proposed project.

This project will provide two express lanes in each direction on I-95 mainline between SW 10th Street and Hillsboro Boulevard and will evaluate potential modifications to the existing merge and diverge ramp areas at the SW 10th Street and Hillsboro Boulevard interchanges. Alternatives will also be developed at SW 10th Street to provide direct connect ramps to the I-95 Express lanes. Replacement of the existing SW 10th Street bridge over I-95, and the provision of a grade separation at SW 10th Street and South Military Trail; and at the existing at-grade CSX Railroad crossing at Hillsboro Boulevard located 1900 feet west of the existing interchange will also be considered.
