front

VEHICLE FLUID SPILL MITIGATION GUIDELINES

- **Identify** spill as a vehicle fluid, *not cargo*
- **Stop** leaking fluid at the source
- **Contain** and limit spill from spreading
- Apply available **absorbent** (can use sand or dirt if needed)
  - Sweep material off travel lanes
  - Apply second application, if necessary
- Gradually **restore** traffic flow
- Ensure proper **notifications** are made
  - Identify responsible party
  - Mark location of material

Revised 10/2012

VEHICLE FLUID SPILL MITIGATION GUIDELINES

Identify Reportable Quantity

- 25+ gallons for spilled petroleum products spilled on land
- Any amount which causes sheen on navigable waters
- If in doubt, report to **State Watch Office** at 800-320-0519 (24/7)
- Be prepared to provide the following info: location, type of fluid spilled, responsible party name, address, & phone number

All of these actions should be based on responder's level of training, use of the appropriate Personal Protective Equipment (PPE), and following relevant Maintenance of Traffic Guidelines.
